

Who interacts with the computer most?

13 of the 49 characters listed in the database contribute 92% of the interactions

How do they interact with the computers?

Table below shows the percentage of each character's conversation that can be allocated to the primary interaction types. Three user groups emerge: 1) Give command instructions (Krag, Wesley, Troi, Barclay, Picard, Data, Worf); 2) Seek answers to questions (Beverly, Geordi, K'Ehleyr) and 3) Make statements (Moriarty, Riker). Lwaxana aka Mrs. Troi shows a mixed pattern of interaction.
